SUMMARY

Accomplished Flutter Developer with 3 years of experience specializing in the end-to-end development of large-scale mobile applications. Successfully delivered high-impact, real-world projects, focusing on architecting robust Management Systems (CMS) and sophisticated web-integrated ordering platforms. Proven ability to translate complex business requirements and Figma designs into scalable, production-ready solutions using Clean Architecture and BLoC to drive operational efficiency.

EXPERIENCE

Flutter & Android Developer

TeraMob Pvt Ltd

01/2026 - Present

Mobile application development company

- Commercial app portfolio:** Architected and deployed 4+ high-traffic applications including **Dietify**, **eBill Checker**, **Speak & Translate**, and **Expense Tracking**, utilizing Riverpod and Clean Architecture to ensure modularity.
- Feature integration:** Engineered sophisticated modules including AI-powered conversation bots, OCR camera translations, and real-time utility bill tracking for multiple national providers.
- Revenue optimization:** Integrated subscription models and ad-network SDKs across all production apps, maintaining 100% stability and high user retention rates.

Flutter & System Developer

Webticians

12/2025 - Present

Rawalpindi, Pakistan

Apps Websites, SEO, E-commerce, Graphic Design and Shopify

- Hospitality Ecosystem (WOS/POS):** Engineered a multi-platform "5-in-1" ecosystem for restaurants, comprising a Web Ordering System (WOS), a web-based POS, and a dedicated Order Terminal app.
- Scalable Multi-Tenant Backend:** Developed a sophisticated WOS backend that allows for unlimited restaurant and takeaway registrations, enabling rapid business scaling.
- Operational Impact:** Digitized the ordering pipeline for cafes and takeaways, bridging the gap between digital consumer menus and physical kitchen fulfillment

Flutter Developer Intern

OCTALOOP TECHNOLOGIES

06/2024 - 09/2024

Company specializing in mobile application development

- Developed multiple production-level Flutter applications from Figma designs using clean architecture, BLoC, and responsive UI techniques.
- Resolved real-world bugs, optimized screens for various devices, and improved app performance and stability.
- Integrated Firebase Authentication, Firestore, and REST APIs, strengthening backend communication and feature development.
- Gained professional workflow experience including Git, team collaboration, and delivering client-ready features

Native Android Developer

CENIT

05/2024 - 03/2025

Netowrking and IT

- Developed Android applications using Java and XML with API integration, RecyclerView, View Binding, and Data Binding. Delivered client-focused features, resolved bugs, and implemented enhancements while strengthening debugging and problem-solving skills. Integrated Firebase real-time database and local storage for dynamic data handling.

EDUCATION

BS in Computer Science

ARID AGRICULTURE UNIVERSITY

11/2021 - 07/2025

Rawalpindi, Pakistan

GPA

3.63 / 4.0

Intermediate in Computer Science

Askaria Schools & Colleges

01/2019 - 01/2021

Saddar, Rawalpindi

Percentage

94 / 100

EDUCATION

Matriculation

Askaria Schools & Colleges

03/2017 - 2019 Saddar, Rawalpindi

GPA
94 / 100

SIDE PROJECTS

 Masjid 360 Full-Stack Community Management System Successfully developed a full-stack community management system that improved financial transparency and operational efficiency	 AI Camera Classifier Computer Vision (Python/OpenCV) Engineered a real-time object identification tool showcasing high-level technical proficiency in computer vision
 HangAroo Native Game Re-implemented complex gameplay logic in Java/Android, managing the full lifecycle from asset management to final optimization	 Weather Forecast A weather application displaying real-time data Developed a lightweight weather application in Flutter that fetches real-time weather data using REST APIs.

SKILLS

Flutter	Dart	Android Native	XML	Mobile UI Design	Node.js	Express.js	Firebase	
Rest Full API	MySql	SqfLite	Mongo db	C/C++	HTML5	CSS3	Javascript	Payment Gateway
JSON Parsing	IBM	hostinger	Vercel	RESTful API	Android Studio	Postman		
Visual Studio Code	Android Studio	GitHub	Git	Insomnia				

CERTIFICATIONS

Node.js & MongoDB: Developing Back-end Database Applications
IBM

Android Java + Database
NAVTTC

Android Java IT Specialist Badge + Android Java + Database
Pearson VUE & NAVTTC (Collaborated)
